

GENERAL DIRECTOR OF THE S.C. BEESPEED AUTOMATIZĂRI S.R.L. STATEMENT CONCERNING ENVIRONMENTAL, HEALTH AND OCCUPATIONAL SECURITY POLICIES

The highest management level, represented by the General Director of S.C. BEESPEED AUTOMATIZĂRI S.R.L., engages himself to observe the principle of durable development, stop the depletion of natural resources, continuously improve the environment conditions and prevent pollution, to continuously protect its employee's health and security by the following:

- integrating environment management, occupational health and security in all management functions inside the firm structure;
- permanent comply with the environment settlements and legislation, work health and security as well as other requirements and regulation which the company commits;
- training and making aware of the organization's personnel regarding environment issues and in field like occupational health and security;
- correct and economic administration of the natural resources;
- evaluating and conforming to the accessed requests by the environment, occupational health and security standards;
- continuously improving the processes that generate environment aspects;
- continuously evaluating and improving environmental, occupational health and security performances and to use applications, materials and products that decrease the risk on people and the environment;
- applying management methodologies of risks already demonstrated, to reduce and coordinate occupational health and security risks in an effective way;
- reducing the quantity of waste products that accrue from the organizational processes and activities and managing these in the goal of reusing, capitalization, recycling and safe elimination of these as to have the least most possible impact on the environment.

For applying the present policy and reaching the environmental objectives and goals, occupational health and security we implement and sustain a **Integrated Management System –Quality, Environment, Occupational Health and Security (SMI)** under **SR EN ISO 9001:2001, SR EN ISO 14001:2005, OHSAS 18001:2004**. The responsibility and the authority to assure implementation, certification and maintenance SMI as well as improving its efficiency belongs to the Responsible for the Quality, Environment, Occupational Health and Security Management.

The present policy as well as our environment, occupational health and security performances are analyzed periodically by the leadership of S.C. BEESPEED AUTOMATIZĂRI S.R.L., to ensure it's accordance with the legal requests and they are communicated to the organization's personnel as to the public through the available means of exterior communication.

The environment, occupational health and security policy is annually updated as to be able to continuously adapt to the legal requests, settlement or any other requests for the organization.

We ensure the transparency in the relationships that the organizations has with its neighbors, clients, suppliers, the local community, the authorities and other legally interested parts.

Timișoara, 01.06.2007

General Director,
Dr. ing. **Scridon Sever**
